

Dr. Wilkes & Partners

VACANCY – 4 SESSION SALARIED GP

We are looking for salaried GP, with a view to partnership, to join our existing team of four partners, ideally starting this year.

We can offer the successful candidate a supportive working environment with evenly distributed workload and great clinical and administrative support.

We have been a triage practice since 2015 and have offered askmyGP as our online service since April 2020.

The successful candidate will provide a minimum 4 clinical sessions per week with an opportunity for extra sessions – these would be full days as we know half days don't really exist in general practice!

Days of work will be every Monday plus either Wednesday or Thursday.

- Practice list size 6,200
- 6 weeks annual leave with pro-rata bank holidays
- High achievement in QOF, with excellent admin support
- Forward thinking, dynamic practice – pilot site for new IT initiatives □ Special interests encouraged.
- Long-established and well-regarded training practice for Specialty GP trainees and Foundation Year 2 doctors, as well as Cardiff final year medical students
- Pharmacist and nurse-led chronic disease management and minor illness clinics
- Vision and askmyGP
- Competitive rate of pay, with annual uplifts. MPS fees included
- Review for potential partnership opportunity at 12 months
- Practice takes an active role in local cluster work – one of our partners is Neath Cluster Lead
