

We are a happy patient-centred team of about 25 people (full and part-time) and we strive to provide our patients with the best care that we can.

The post-holder will deal with a wide range of health needs in a primary care setting, ensuring the highest standards of care for all registered and temporary patients.

The ability to maintain a high standard in clinical, confidentiality, health and safety and partnership matters is essential, and we welcome applicants who are keen to:

- ✓ listen and communicate effectively
- ✓ work with people – patients, families and the whole practice team
- ✓ work collaboratively as part of that team
- ✓ help us handle uncertainty and conflicting demands in the modern Primary Care
- ✓ maintain calm while working under pressure
- ✓ have an interest in IT and help us develop IT infrastructure
- ✓ help us manage change

In general, the post-holder will be expected to undertake all the normal duties and responsibilities associated with a GP Partner working within primary care, as part of our supportive team and (mostly) with a smile.
