

Salaried GP Vacancy
Tonyfelin Medical Centre, Caerphilly, S. Wales

We are in search of an enthusiastic GP to join our team for 6 sessions per week (negotiable for the right candidate). We strive to create a friendly and supportive working environment and look forward to welcoming someone new to our team that currently consists of 7 GP Partners, 1 salaried GP, trainee nurse practitioner and an experienced nursing team. Current GP's have a range of special interests including family planning services and minor surgery, joint injections and we would encourage professional development within the role.

We aim to work towards providing excellent care to our patients but fully appreciate the importance of work life balance. GP's meet daily for coffee/lunch and use this as an opportunity to support each other with any clinical concerns/queries they may have.

We would be happy to arrange informal visits to meet the team or telephone chats to discuss the role further.

Summary:

- Short distance from Cardiff (15 minutes)
- 7 weeks annual leave – 2 weeks guaranteed in 6 week school summer holidays
- Vision (InPS) clinical system
- 12,900 patients
- In house Cluster physiotherapist and mental health worker
- Subscription to wide range of enhanced services including anticoagulation (INR monitoring and DOAC), minor surgery, joint injection, lithium monitoring
- Flexible surgery sessions to suit work life balance
- High achievement in QOF, with excellent administrative support
